Please read carefully

- All campers must have a Health Screening **the week prior to the camp that they attend (no earlier)**. City Union Mission offers free screenings the Saturday before each camp session. An adult must accompany your child to the screening. **You may also choose to have your own doctor perform the exam, in which case we need the health screening form back and any medication for your camper no later than the Friday before their camp session begins to save the camper’s place.**
  - If your camper takes prescription medicine, it is the parent’s responsibility to bring a week’s supply to the Saturday Health Screening. The medication must come in the original bottle with the label attached by the pharmacist/physician, and should include the child’s name, name of medication, dosage, and name of physician. We will have a nurse on grounds to administer medications.
  - Do not pack meds in the child’s bag!!!
  - Also, **bring each child’s immunization record to the Health Screening!**

**Children with Asthma**

For children who have used their inhaler or have ever taken asthma medications, please bring all of the following to the health screening...
- Dr.’s Asthma Action Plan
- Inhaler, nebulizer, and spacer must be brought to camp
- Dr.’s guidelines for peak flow meter

- Children with special needs are taken on a case-by-case basis.
- Children found to have any of the following at camp send-off will not be accepted to attend camp: head lice, flu, chicken pox, fever, undiagnosed rash, ringworm or Pink Eye
- Campers are not allowed to make phone calls from camp.
- No visitors are allowed at camp. Campers may not leave early unless there is an emergency.
- If your income exceeds our guidelines (KCMO school district free lunch guidelines), your camper will be put on a waiting list. The fee for camp will then be based on your income.
